

# Fares Metwally Elshafey

## Front-end Developer

Location: Cairo – Egypt | Email: [fares.melshafey@gmail.com](mailto:fares.melshafey@gmail.com) | linkedin: <http://www.linkedin.com/in/fares-elshafey>  
Github: <https://github.com/fares1233> | Phone: (+20) 109-859-1080

---

### Summary

- React Developer experienced in developing dashboard applications, map-based systems, and accessibility-focused solutions. Built a hotel management dashboard with booking and check-in workflows, and contributed to an accessible transportation platform featuring AI-powered sign language recognition, voice search, and smart route recommendations. Skilled in API integration, state management, and structuring reusable application logic.

---

### EDUCATION

- **B.Sc. Computer Science – October 6 University | GPA: 3.43 (Very Good)** (2022-2026)

---

### Training

- **Web Designer Training (HTML, CSS, JavaScript) – NTI** (2 months – 6 / 2025 )  
Built responsive and interactive websites using HTML, CSS, and JavaScript.

---

### Projects

- **Tareeqy | [GitHub](#) | [Live Demo](#):** (React, React Query, Tailwind CSS, Shadcn UI, SignalR, MediaPipe, Formik, Yup, JWT, OpenStreetMap, Google Maps API, Vite)
  - Developed an accessible public transportation platform as part of a two-person team, featuring smart route recommendations, voice search, real-time AI-powered sign language translation, secure authentication, and map-guided navigation for bus and metro commuters.
- **The Wild Oasis | [GitHub](#) | [Live Demo](#):** (React, TanStack Query, React Router, Styled Components, Supabase, Vite)
  - Developed a hotel management dashboard with authentication, cabin and booking CRUD operations, check-in/check-out management, breakfast add-ons, payment confirmation, image uploads, interactive dashboards, dark mode, filtering, and pagination.
- **WorldWise App | [GitHub](#) | [Live Demo](#):** (React, React Router, Context API, Redux toolkit, Leaflet.js, Vite)  
Built a travel-tracking SPA that enables users to explore cities on an interactive map, log visited locations, and synchronize application state through dynamic URL-based routing.

---

### Technical Skills

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Sass, Tailwind CSS, Bootstrap, Figma to Code.
- **State Management:** Redux Toolkit, Context API, React Query.
- **Tools:** Git, GitHub, Supabase, Vite, REST APIs, React Router.
- **Concepts & Logic:** Problem Solving, Algorithms, Data Structures and OOP.

---

### Courses

- **The Ultimate React Course 2025: React, Next.js, Redux & More** : Udemy – Jonas Schmedtmann.
- **The Complete JavaScript Course 2025** : Udemy – Jonas Schmedtmann.
- **Advanced CSS and Sass: Flexbox, Grid, Animations** : Udemy – Jonas Schmedtmann.

---

### Achievements

- **ECPC Contestant:** Participated in the Egyptian Collegiate Programming Contest and achieved a competitive rank among nationwide teams.
